Vitums, A., 26.

Wakely, Walter J., 240.
Wallace, M. Elizabeth, 232, 345, 368.
Washko, F. V., 165, 320.
Willers, E. H., 44.
Wilson, J. B., 20.
Wyant, Z. N., 364.

Young, Viola Mae, 48.

Zink, A., 194.

Index of Subjects

A

Aborted Fetuses and Placentas to Adult Dogs, The Bacteriologic Aspects of Experimental Brucellosis in Dogs Following Oral Exposure. I. Effects of Feeding, 219.

Agglutinins in the Genital Organs of Brucella-Infected Cows, The Occurrence and Significance of, 97.

Alcohol, Concentration of the Virus of Infectious Sinusitis of Turkeys with Methyl, 230.

Antibody Indexes of Normal Chicken Serum, Newcastle Disease and Infectious Bronchitis Neutralizing, 129.

Antibody Response of Horses to Japanese Equine Encephalomyelitis Mouse Brain Vaccine, 106.

Aortic Arches in the Horse, The Development of the, 26.

Arterial and Venous Pressures in Cattle Using the Electromanometer, Direct Measurement of, 90.

Asparagine Brands Found To Be Deficient for the Growth of Tubercle Bacilli, Trace Element Supplements for, 254.

Aureomycin Activity, Listeriosis—Field and Laboratory Studies, and, 194.

Aureomycin Against Salmonella Gallinarum *in Vivo* and *in Vitro*, The Effect of, 156.

(Avian Pneumoencephalitis) in Hawaii, Newcastle Disease, 44.

B

Bacterial Content of Diluted Bull Semen Treated with Various Concentrations of Dihydrostreptomycin Sulfate, Fertility and, 191.

Bacterial Flora of the Bovine Male Genitalia, 14.

Bacteriological Aspects of Experimental Brucellosis in Dogs Following Oral Exposure, The. II. Effects of Feeding Brucella-Infected Milk to Young Dogs, 324.

Bat (Myotis Lucifugus), Effects of Nasal Instillation of Virus Strains of Newcastle Disease Virus Into the Cave, 347.

Blood of Egyptian Buffaloes, The Hematologic Examination of Normal, 23.

Boars Reared in a Restricted Environment, The Fertility of, 118.

(Bos Taurus) Throughout the Estrous Cycle, The Cytological Changes in the Cervical Mucosa of the Cow, 276.

Botulism in the Mouse, Mink, and Ferret with Special Reference to Susceptibility and Pathological Alterations, 355.

Bovine Foot, Pathology of Necrobacillosis of the, 5.

Bovine Hyperkeratosis, Attempts to Produce, 261.

Bovine Male Genitalia, Bacterial Flora of the, 14.

Bovine Mastitis Cases, Hyaluronidase Production *in Vitro* by Streptococci Isolated from, 20.

Bovine Oviduct, Some Pathologic Alterations of the, 69.

Bovine Tongue Epithelium, Research on Foot-and-Mouth Disease. III. The Cultivation of the Virus on a Practical Scale in Explantations of, 187.

Bronchitis, Infectious, 140.

Bronchitis Neutralizing Antibody Indexes of Normal Chicken Serum, Newcastle Disease and Infectious, 129.

Brucella Abortus for Swine, Studies on the Pathogenicity of, 320.

Brucella Abortus in Saline-in-Oil Emulsion in a Herd of Cattle with Brucellosis, The Use of Ether-Killed, 175.

Brucella-Infected Cows, The Occurrence and Significance of Agglutinins in the Genital Organs of, 97.

Brucella-Infected Milk to Young Dogs, The Bacteriological Aspects of Experimental Brucellosis in Dogs Following Oral Exposure. II. Effects of Feeding, 324.

Brucella-Stained Antigen Milk Test, Capillary Tube Method for Conducting the, 75.

Brucella Suis for Cattle. II. Studies on the Pathogenicity of, 165.

Brucellosis in Chickens, A Study of the Nature of, 48.

Brucellosis in Dogs Following Oral Exposure. I. Effects of Feeding Aborted Fetuses and Placentas to Adult Dogs, The Bacteriologic Aspects of Experimental, 219.

Brucellosis in Dogs Following Oral Exposure. The Bacteriological Aspects of Experimental. II. Effects of Feeding Brucella-Infected Milk to Young Dogs, 324.

Brucellosis, The Use of Ether-Killed Brucella Abortus in Saline-in-Oil Emulsion in a Herd of Cattle with, 175.

Buffaloes, The Hematologic Examination of Normal Blood of Egyptian, 23.

Bull Semen Treated with Various Concentrations of Dihydrostreptomycin Sulfate, Fertility and Bacterial Content of Diluted, 191.

C

Calves, A Clinical Pathological Study of Experimental Leptospirosis of, 282.

Canine Hepatitis, Observations on Infectious, 38.

Capillary Tube Method for Conducting the Brucella-Stained Antigen Milk Test, 75.
Cats in a Nonurban Area, The Incidence of Salmonella In Dogs, and, 35.
Cattle Artificially and Naturally Sensitized with Mycobacterium Paratuberculosis, A Comparative Study of the Intradermal Johnin Test on, 302.
Cattle. I. Effects of Water Diuresis on Renal Excretion of Several Elements, Studies of Electrolytes in Body Fluids of Dairy, 183.
Cattle, Experimental Evaluation of Six Halogenated Sulfapyrimidines in, 81.
Cattle, Nasal Granuloma—A Report of Two Cases in, 85.
Cattle, Studies of Electrolytes in Body Fluids of Dairy. II. Effects of Estrogen on Electrolyte Levels in Body Fluids in Late Pregnancy, 292.
Cattle, Studies of Electrolytes in Body Fluids of Dairy. III. Effects of Potassium on Electrolyte Levels in Body Fluids in Midlactation, 296.
Cattle. II. Studies on the Pathogenicity of Brucella Suis for, 165.
Cattle to Intradermal Tests, Relative Sensitivity of Different Skin Areas of, 273.
Cattle Using the Electromanometer, Direct Measurement of Arterial and Venous Pressures in, 90.
Cattle with Brueellosis, The Use of Ether-Killed Brucella Abortus in Saline-in-Oil Emulsion in a Herd of, 175.
Cervical Mucosa of the Cow (Bos Taurus) Throughout the Estrous Cycle, The Cytological Changes in the, 276.
Chicken Embryo Infected with a Transmissible Agent Isolated from Sheep Lungs, A Study of the Pathology of the, 201.
Chicken Embryos, Morphologic Observations by Electron Microscopy of the Monkey-Adapted Newcastle Disease Virus After Culture in, 55.
Chicken Embryo, The Propagation of the Causative Agent of Infectious Sinusitis of the Turkey in the, 329.
Chicken Embryo Vaccine, Studies on a Pasteurella Multocida. II. Type-Specific Nature of Immunity Elicited by a Monovalent Pasteurella Multocida Vaccine, 326.
Chicken, A Quantitative Study of Newcastle Disease Virus in Tissues of Infected, 334.
Chickens, A Study of the Nature of Brucellosis in, 48.
Chicken Serum, Newcastle Disease and Infectious Bronchitis Neutralizing Antibody Indexes of Normal, 129.
Chicken Serums, Newcastle Disease Virus-Neutralizing Indexes of Normal, 345.
Chickens from Hens Immunized with Live Virus Vaccines, Susceptibility to Newcastle Disease Infection of, 232.
Chickens Under Field Conditions, Use of Sulfaquinoxaline as a Preventative Against Mild Outbreaks of Coccidiosis of, 349.
Chickens Vaccinated with a Killed Virus Vaccine, Susceptibility to Newcastle Disease Infections of, 368.
Chicks Fed an All-Plant Protein Ration, Effect of a Vitamin B_{12} Concentrate and Liver Meal on the Hematology of, 147.
Chicks Fed an All-Plant Protein Ration, Effect of a Vitamin B_{12} Concentrate and Liver Meal on the Histopathology of, 224.
Cholera Virus by Electron Microscopy, Morphologic Studies of Hog, 116.
Coccidiosis of Chickens Under Field Conditions, Use of Sulfaquinoxaline as a Preventative Against Mild Outbreaks of, 349.
Cortisone on Normal Sheep, The Effect of, 314.
Cow (Bos Taurus) Throughout the Estrous Cycle, The Cytological Changes in the Cervical Mucosa of the, 276.
Cows, The Occurrence and Significance of Agglutinins in the Genital Organs of Brucella-Infected, 97.
Cytological Changes in the Cervical Mucosa of the Cow (Bos Taurus) Throughout the Estrous Cycle, The, 276.

D

Dairy Cattle, Studies of Electrolytes in Body Fluids of. II. Effects of Estrogen on Electrolyte Levels in Body Fluids in Late Pregnancy, 292.
Dairy Cattle, Studies of Electrolytes in Body Fluids of. III. Effects of Potassium on Electrolyte Levels in Body Fluids in Midlactation, 296.
Dogs Following Oral Exposure, The Bacteriological Aspects of Experimental Brucellosis in. II. Effects of Feeding Brucella-Infected Milk to Young Dogs, 324.
Dihydrostreptomycin Sulfate, Fertility and Bacterial Content of Diluted Bull Semen Treated with Various Concentrations of, 191.
Diuresis on Renal Excretion of Several Elements, Studies of Electrolytes in Body Fluids of Dairy Cattle. I. Effects of Water, 183.
Dog, Laminectomy in the, 123.
Dogs and Cats in a Nonurban Area, The Incidence of Salmonella Infections in, 35.
Dogs Following Oral Exposure. I. Effects of Feeding Aborted Fetuses and Placentas to Adult Dogs, The Bacteriologic Aspects of Experimental Brucellosis in, 219.

E

Egyptian Buffaloes, The Hematologic Examination of Normal Blood of, 23.

Electrolytes in Body Fluids of Dairy Cattle. I. Effects of Water Diuresis on Renal Excretion of Several Elements, Studies of, 183.

Electrolytes in Body Fluids of Dairy Cattle, Studies of. II. Effects of Estrogen on Electrolyte Levels in Body Fluids in Late Pregnacy, 292.

Electrolytes in Body Fluids of Dairy Cattle, Studies of. III. Effects of Potassium on Electrolyte Levels in Body Fluids in Midlactation, 296.

Electromanometer, Direct Measurement of Arterial and Venous Pressures in Cattle Using the, 90.

Electron Microscopy, Morphologic Studies of Hog Cholera Virus by, 116.

Embryo Infected with a Transmissible Agent Isolated from Sheep Lungs, A Study of the Pathology of the Chicken, 201.

Embryos, Morphologic Observations by Electron Microscopy of the Monkey-Adapted Newcastle Disease Virus After Culture in Chicken, 55.

Embryo, The Propagation of the Causative Agent of Infectious Sinusitis of the Turkey in the Chicken, 329.

Embryo Vaccine, Studies on a Pasteurella Multocida Chicken. II. Type-Specific Nature of Immunity Elicited by a Monovalent Pasteurella Multocida Vaccine, 326.

Encephalomyelitis Mouse Brain Vaccine, Antibody Response of Horses to Japanese Equine, 106.

Encephalomyelitis, Pathology of Eastern Equine, 100.

Environmental Factors on Viability of Newcastle Disease Virus, Influence of, 152.

Equine Encephalomyelitis Mouse Brain Vaccine, Antibody Response of Horses to Japanese, 106.

Equine Encephalomyelitis, Pathology of Eastern, 100.

Eructation in Sheep as Related to Rumen Fluid Level and Gas Insufflation, A Note on, 199.

Estrogen on Electrolyte Levels in Body Fluids in Late Pregnancy, Studies of Electrolytes in Body Fluids of Dairy Cattle. II. Effects of, 292.

Estrous Cycle, The Cytological Changes in the Cervical Mucosa of the Cow (Bos Taurus) Throughout the, 276.

Ether-Killed Brucella Abortus in Saline-in-Oil Emulsion in a Herd of Cattle with Brucellosis, The Use of, 175.

Experimental Leptospirosis of Calves, A Clinical Pathological Study of, 282.

Explantations of Bovine Tongue Epithelium, Research on Foot-and-Mouth Disease. III. The Cultivation of the Virus on a Practical Scale in, 187.

F

Ferret with Special Reference to Susceptibility and Pathological Alterations, Botulism in the Mouse, Mink, and, 355.

Fertility and Bacterial Content of Diluted Bull Semen Treated with Various Concentrations of Dihydrostreptomycin Sulfate, 191.

Fertility of Boars Reared in a Restricted Environment, 118.

Fetuses and Placentas to Adult Dogs, The Bacteriologic Aspects of Experimental Brucellosis in Dogs Following Oral Exposure. I. Effects of Feeding Aborted, 219.

Fluids of Dairy Cattle, Studies of Electrolytes in Body. II. Effects of Estrogen on Electrolyte Levels in Body Fluids in Late Pregnancy, 292.

Fluids of Dairy Cattle, Studies of Electrolytes in Body. III. Effects of Potassium on Electrolyte Levels in Body Fluids in Midlactation, 296.

Foot-and-Mouth Disease. III. The Cultivation of the Virus on a Practical Scale in Explantations of Bovine Tongue Epithelium, Research on, 187.

Foot, Pathology of Necrobacillosis of the Bovine, 5.

Fowl Typhoid Among Breeder Turkeys, A Study of Sulfaquinoxaline and Sulfamethazine in, 134.

G

Gastroenteritis, The Pathology and Symptomatology of Transmissible, 215.

Genitalia, Bacterial Flora of the Bovine Male, 14.

Genital Organs of Brucella-Infected Cows, The Occurrence and Significance of Agglutinins in the, 97.

Granuloma—A Report of Two Cases in Cattle, Nasal, 85.

H

Halogenated Sulfapyrimidines in Cattle, Experimental Evaluation of Six, 81.

Hawaii, Newcastle Disease (Avian Pneumoencephalitis) in, 44.

Helminth Infection, The Economic Import of Host Resistance to, 58.

Hematologic Examination of Normal Blood of Egyptian Buffaloes, The, 23.

Hematology of Chicks Fed an All-Plant Protein Ration, Effect of a Vitamin B_{12} Concentrate and Liver Meal on the, 147.

Hematology of the Thoroughbred Horse, Studies on the. IV. Barren Mares, 31.

Hematology of the Thoroughbred Horse, Studies on the. V. Sucklings, 364.

Hepatitis, Observations on Infectious Canine, 38.
Histopathology of Chicks Fed an All-Plant Protein Ration, Effect of a Vitamin B_{12} Concentrate and Liver Meal on the, 224.
Hog Cholera Virus by Electron Microscopy, Morphologic Studies of, 116.
Horse, Studies on the Hematology of the Thoroughbred. V. Sucklings, 364.
Horse, The Development of the Aortic Arches in the, 26.
Horses to Japanese Equine Encephalomyelitis Mouse Brain Vaccine, Antibody Response of, 106.
Horse Strongyle Larvae, Screening Tests of Iodine Compounds Against, 110.
Horse, Studies on the Hematology of the Thoroughbred. IV. Barren Mares, 31.
Host Resistance to Helminth Infection, The Economic Import of, 58.
Hyaluronidase Production *in Vitro* by Streptococci Isolated from Bovine Mastitis Cases, 20.
Hyperkeratosis, Attempts to Produce Bovine, 261.

I

Immunity Elicited by a Monovalent Pasteurella Multocida Vaccine, Studies on a Pasteurella Multocida Chicken Embryo Vaccine. II. Type-Specific Nature of, 326.
Infectious Sinusitis of the Turkey in the Chicken Embryo, The Propagation of the Causative Agent of, 329.
Insufflation, A Note on Eructation in Sheep as Related to Rumen Fluid Level and Gas, 199.
Intradermal Johnin Test on Cattle Artificially and Naturally Sensitized with Mycobacterium Paratuberculosis, A Comparative Study of the, 302.
Intradermal Tests, Relative Sensitivity of Different Skin Areas of Cattle to, 273.
Iodine Compounds Against Horse Strongyle Larvae, Screening Tests of, 110.

J

Japanese Equine Encephalomyelitis Mouse Brain Vaccine, Antibody Response of Horses to, 106.
Johnin Test on Cattle Artificially and Naturally Sensitized with Mycobacterium Paratuberculosis, A Comparative Study of the Intradermal, 302.

L

Laminectomy in the Dog, 123.
Leptospirosis of Calves, A Clinical Pathological Study of Experimental, 282.
Listeriosis, An Attempt to Immunize Sheep During an Outbreak of, 306.
Listeriosis—Field and Laboratory Studies, and Aureomycin Activity, 194.
Liver Meal on the Hematology of Chicks Fed an All-Plant Protein Ration, Effect of a Vitamin B_{12} Concentrate and, 147.
Liver Meal on the Histopathology of Chicks Fed an All-Plant Protein Ration, Effect of a Vitamin B_{12} Concentrate and, 224.

M

Mares, Barren. IV. Studies on the Hematology of the Thoroughbred Horse, 31.
Mastitis Cases, Hyaluronidase Production *in Vitro* by Streptococci Isolated from Bovine, 20.
Mice in Mixture with Each Polynucleotide Complex from Salmonella Typhimurium, Salmonella Typhosa, and Salmonella Newport, Pathogenicity of Salmonella Typhimurium Administered Subcutaneously to, 340.
Microscopy, Morphologic Studies of Hog Cholera Virus by Electron, 116.
Microscopy of the Monkey-Adapted Newcastle Disease Virus After Culture in Chicken Embryos, Morphologic Observations by Electron, 55.
Midlactation, Studies of Electrolytes in Body Fluids of Dairy Cattle. III. Effects of Potassium on Electrolyte Levels in Body Fluids in, 296.
Milk Test, Capillary Tube Method for Conducting the Brucella-Stained Antigen, 75.
Milk to Young Dogs, The Bacteriological Aspects of Experimental Brucellosis in Dogs Following Oral Exposure. II. Effects of Feeding Brucella-Infected, 324.
Mink, and Ferret with Special Reference to Susceptibility and Pathological Alterations, Botulism in the Mouse, 355.
Molluscicides for the Control of Fresh Water Snails, New, 158.
Monkey-Adapted Newcastle Disease Virus After Culture in Chicken Embryos, Morphologic Observations by Electron Microscopy of the, 55.
Monkeys, Studies of Newcastle Disease and Poliomyelitis Viruses in Rhesus, 250.
Morphologic Observations by Electron Microscopy of the Monkey-Adapted Newcastle Disease Virus After Culture in Chicken Embryos, 55.
Morphologic Studies of Hog Cholera Virus by Electron Microscopy, 116.
Morphology of the Turkey Spermatozoa—with Special Reference to the Seasonal Prevalence of Abnormal Types, A Study of the, 240.
Mortality. VI. Experimental Uremia in Young Pigs, Studies on Baby Pig, 206.
Mouse Brain Vaccine, Antibody Response of

Horses to Japanese Equine Encephalomyelitis, 106.
Mouse, Mink, and Ferret with Special Reference to Susceptibility and Pathological Alterations, Botulism in the, 355.
Mycobacterium Paratuberculosis, A Comparative Study of the Intradermal Johnin Test on Cattle Artificially and Naturally Sensitized with, 302.

N

Nasal Granuloma—A Report of Two Cases in Cattle, 85.
Nasal Instillation of Virus Strains of Newcastle Disease Virus Into the Cave Bat (Myotis Lucifugus), Effects of, 347.
Necrobacillosis of the Bovine Foot, Pathology of, 5.
Newcastle Disease and Infectious Bronchitis Neutralizing Antibody Indexes of Normal Chicken Serum, 129.
Newcastle Disease and Poliomyelitis Viruses in Rhesus Monkeys, Studies of, 250.
Newcastle Disease (Avian Pneumoencephalitis) in Hawaii, 44.
Newcastle Disease Infection of Chickens from Hens Immunized with Live Virus Vaccines, Susceptibility to, 232.
Newcastle Disease Infection of Chickens Vaccinated with a Killed Virus Vaccine, Susceptibility to, 368.
Newcastle Disease Virus After Culture in Chicken Embryos, Morphologic Observations by Electron Microscopy of the Monkey-Adapted, 55.
Newcastle Disease Virus, Characteristics of the B1 Strain of, 246.
Newcastle Disease Virus, Influence of Environmental Factors on Viability of, 152.
Newcastle Disease Virus in Tissues of Infected Chickens, A Quantitative Study of, 334.
Newcastle Disease Virus Into the Cave Bat (Myotis Lucifugus), Effects of Nasal Instillation of Virus Strains of, 347.
Newcastle Disease Virus-Neutralizing Indexes of Normal Chicken Serums, 345.

O

Oviduct, Some Pathologic Alterations of the Bovine, 69.

P

Pasteurella Multocida Chicken Embryo Vaccine, Studies on a. II. Type-Specific Nature of Immunity Elicited by a Monovalent Pasteurella Multocida Vaccine, 326.
Pathologic Alterations of the Bovine Oviduct, Some, 69.
Pathogenicity of Brucella Suis for Cattle. II. Studies on the, 165.
Pathology of Necrobacillosis of the Bovine Foot, 5.
Pig Mortality. VI. Experimental Uremia in Young Pigs, Studies on, 206.
Placentas to Adult Dogs, The Bacteriologic Aspects of Experimental Brucellosis in Dogs Following Oral Exposure. I. Effects of Feeding Aborted Fetuses and, 219.
Poliomyelitis Viruses in Rhesus Monkeys, Studies of Newcastle Disease and, 250.
Potassium on Electrolyte Levels in Body Fluids in Midlactation, Studies of Electrolytes in Body Fluids of Dairy Cattle. III. Effects of, 296.
Pregnancy, Studies of Electrolytes in Body Fluids of Dairy Cattle. II. Effects of Estrogen on Electrolyte Levels in Body Fluids in Late, 292.
Protein Ration, Effect of a Vitamin B_{12} Concentrate and Liver Meal on the Histopathology of Chicks Fed an All-Plant, 224.

R

Renal Excretion of Several Elements, Studies of Electrolytes in Body Fluids of Dairy Cattle. I. Effects of Water Diuresis on, 183.
Resistance to Helminth Infection, The Economic Import of Host, 58.
Rumen Fluid Level and Gas Insufflation, A Note on Eructation in Sheep as Related to, 199.

S

Salmonella Gallinarum *in Vivo* and *in Vitro*, The Effect of Aureomycin Against, 156.
Salmonella Infections in Dogs and Cats in a Nonurban Area, The Incidence of, 35.
Semen Treated with Various Concentrations of Dihydrostreptomycin Sulfate, Fertility and Bacterial Content of Diluted, 191.
Salmonella Typhimurium Administered Subcutaneously to Mice in Mixture with Each Polynucleotide Complex from Salmonella Typhimurium, Salmonella Typhosa, and Salmonella Newport, Pathogenicity of, 340.
Sensitivity of Different Skin Areas of Cattle to Intradermal Tests, Relative, 273.
Serums, Newcastle Disease Virus-Neutralizing Indexes of Normal Chicken, 345.
Sheep as Related to Rumen Fluid Level and Gas Insufflation, A Note on Eructation in, 199.
Sheep During an Outbreak of Listeriosis, An Attempt to Immunize, 306.
Sheep Lungs, A Study of the Pathology of the Chicken Embryo Infected with a Transmissible Agent Isolated from, 201.
Sheep, The Effect of Cortisone on Normal, 314.

Sinusitis of the Turkey in the Chicken Embryo, The Propagation of the Causative Agent of Infectious, 329.
Sinusitis of Turkeys with Methyl Alcohol, Concentration of the Virus of Infectious, 230.
Skin Areas of Cattle to Intradermal Tests, Relative Sensitivity of Different, 273.
Snails, New Molluscicides for the Control of Fresh Water, 158.
Spermatozoa—with Special Reference to the Seasonal Prevalence of Abnormal Types, A Study of the Morphology of the Turkey, 240.
Streptococci Isolated from Bovine Mastitis Cases, Hyaluronidase Production *in Vitro* by, 20.
Strongyle Larvae, Screening Tests of Iodine Compounds Against Horse, 110.
Sucklings, Studies on the Hematology of the Thoroughbred Horse. V, 364.
Sulfamethazine in Fowl Typhoid Among Breeder Turkeys, A Study of Sulfaquinoxaline and, 134.
Sulfapyrimidines in Cattle, Experimental Evaluation of Six Halogenated, 81.
Sulfaquinoxaline and Sulfamethazine in Fowl Typhoid Among Breeder Turkeys, A Study of, 134.
Sulfaquinoxaline as a Preventative Against Mild Outbreaks of Coccidiosis of Chickens Under Field Conditions, Use of, 349.
Swine, Studies on the Pathogenicity of Brucella Abortus for, 320.

T

Test, Capillary Tube Method for Conducting the Brucella-Stained Antigen Milk, 75.
Test on Cattle Artificially and Naturally Sensitized with Mycobacterium Paratuberculosis, A Comparative Study of the Intradermal Johnin, 302.
Tests of Iodine Compounds Against Horse Strongyle Larvae, Screening, 110.
Tests, Relative Sensitivity of Different Skin Areas of Cattle to Intradermal, 273.
Thoroughbred Horse, Studies on the Hematology of the. IV. Barren Mares, 31.
Thoroughbred Horse, Studies on the Hematology of the. V. Sucklings, 364.
Trace Element Supplements for Asparagine Brands Found to Be Deficient for the Growth of Tubercle Bacilli, 254.
Tubercle Bacilli, Trace Element Supplements for Asparagine Brands Found To Be Deficient for the Growth of, 254.
Turkey in the Chicken Embryo, The Propagation of the Causative Agent of Infectious Sinusitis of the, 329.
Turkeys, A Study of Sulfaquinoxaline and Sulfamethazine in Fowl Typhoid Among Breeder, 134.
Turkey Spermatozoa—with Special Reference to the Seasonal Prevalence of Abnormal Types, A Study of the Morphology of the, 240.
Turkeys with Methyl Alcohol, Concentration of the Virus of Infectious Sinusitis of, 230.
Typhoid Among Breeder Turkeys, A Study of Sulfaquinoxaline and Sulfamethazine in Fowl, 134.

U

Uremia in Young Pigs, Studies on Baby Pig Mortality. VI. Experimental, 206.

V

Vaccine, Antibody Response of Horses to Japanese Equine Encephalomyelitis Mouse Brain, 106.
Vaccine, Studies on a Pasteurella Multocida Chicken Embryo. II. Type-Specific Nature of Immunity Elicited by a Monovalent Pasteurella Multocida Vaccine, 326.
Vaccines, Susceptibility to Newcastle Disease Infection of Chickens from Hens Immunized with Live Virus, 232.
Vaccine, Susceptibility to Newcastle Disease Infection of Chickens Vaccinated with a Killed Virus, 368.
Venous Pressures in Cattle Using the Electromanometer, Direct Measurement of Arterial and, 90.
